

Khany Sims

A few sets of the site had failures and others could be improved. Guardgian has embarked on a titanic job to beautify and fix those things you love

Here is the list of sets to which changes have been made as well as a direct link to the page if you want to download them in their current form.

The whole team is obviously at your disposal via the site's e-mail if you have any questions.

I hope these upgrades will please you.

If some objects still have malfunctions in the game, you can follow this [tutorial](#) to fix them on your computer. Indeed, we noticed that sometimes the update depends on the computer. We do not know why but it's a proven fact.

The entire Khany Sims team wishes you many hours of fun with the Sims.
